PROFILE SUMMARY

A driven and enthusiastic undergraduate pursuing a **Bachelor of Technology in Computer Science & Engineering** with a specialization in **Artificial Intelligence & Machine Learning**.

- Proficient in **Python, Full Stack Development** using Python (along with **React**), and **UI/UX Design (Figma)** with a focus on delivering seamless and engaging user experiences.
- Demonstrated ability to **conceptualize, design, and deliver projects efficiently**, showcasing **leadership, teamwork**, and **problem-solving** skills throughout the software development lifecycle.
- Committed to **continuous learning** and applying emerging technologies to deliver impactful, user-centered solutions.

EDUCATION

- | | |
|---|-------------|
| • B-Tech in Computer Science and Engineering (spec. AI & ML)
GITA Autonomous College, Bhubaneswar
2022 – Present (exp. 2026) | 8.12 |
| • Higher Secondary Education (+2 Science)
College of Basic Science & Humanities, Bhubaneswar
2020 – 2022 | 77 % |
| • Secondary Education
Carmel English Medium School, Khordha | 89 % |

SKILLS

Programming & Development:

- Python, HTML/CSS, SQL, React
- Web Development & Hosting
- Software Development, Software Architecture
- UML, Relational Database Design

Tools & Software:

- Git, VSCode, Cursor, Tableau, Postman, MongoDB
- Figma, Canva ([Sample Designs](#))

Data & Analytics:

- Data Analysis, Data Visualization, Data Interpretation
- Charts & Graphs, Dashboards, Analytics & Insights

PROJECTS

PORTFOLIO

Tools: *React, JavaScript, HTML, CSS, Framer*

- Designed and built a responsive portfolio website.
- Integrated Framer for minimal motion graphics and smooth UI interactions.

User Authentication System

Tools: *Flask + MongoDB + HTML/CSS/JS*

- Designed and implemented a secure user authentication system with signup, login, “Remember Me,” and password reset functionality.
- Applied bcrypt password hashing and Fernet encryption for sensitive data, and real-time form validation.
- Built responsive, mobile-friendly UI with smooth transitions and integrated backend API endpoints for seamless data handling.

Banking FAQ AI Chatbot

Tools: *HTML, CSS, JavaScript, Anime.js, Python (Flask), Web Speech API (Speech Recognition & TTS), Fetch API*

- Developed an interactive, WhatsApp-style chatbot to answer banking FAQs in real time.
- Implemented typing animations, speech recognition, and text-to-speech with toggleable audio playback.
- Designed responsive UI with user/bot avatars, smooth transitions, and realistic conversation delays for better UX.

Citizen Complaint & Grievance Analyzer

Tools: *Python, Streamlit, MySQL, Scikit-learn*

- Built an NLP-based system to classify citizen complaints and assign relevant departments using TF-IDF and Logistic Regression.
- Developed a Streamlit dashboard with real-time predictions and MySQL logging for transparent grievance tracking.

CERTIFICATIONS

- **Python Programming – OCAC Training Center, Bhubaneswar**
 - Applied Python for analytical and problem-solving use cases.
- **Web Development – GauravGo Technologies**
 - Developed and deployed a **modern, responsive portfolio website** using advanced frontend technologies.
- **Tata Data Visualization – Forage (Jan 2025)**
 - Created dashboards and data visualizations to support **executive-level decision-making**.
- **Walmart USA Advanced Software Engineering – Forage (Jun 2025)**
 - Implemented a **custom heap data structure in Java** and designed **UML & ER diagrams** for scalable systems.

SOFT SKILLS & INTERESTS

Soft Skills:

- Effective Communication, Team Collaboration, Design and Analytical Thinking, Presentation
- Problem Solving Strategy, Research

Interests:

- Drawing, Badminton, Online Gaming, Traveling, Photography
